

03 Programme Educational Objective (PEO)

FOUNDATION IN ENGINEERING TECHNOLOGY

The Foundation in Engineering Technology programme completion, the graduates are able to:

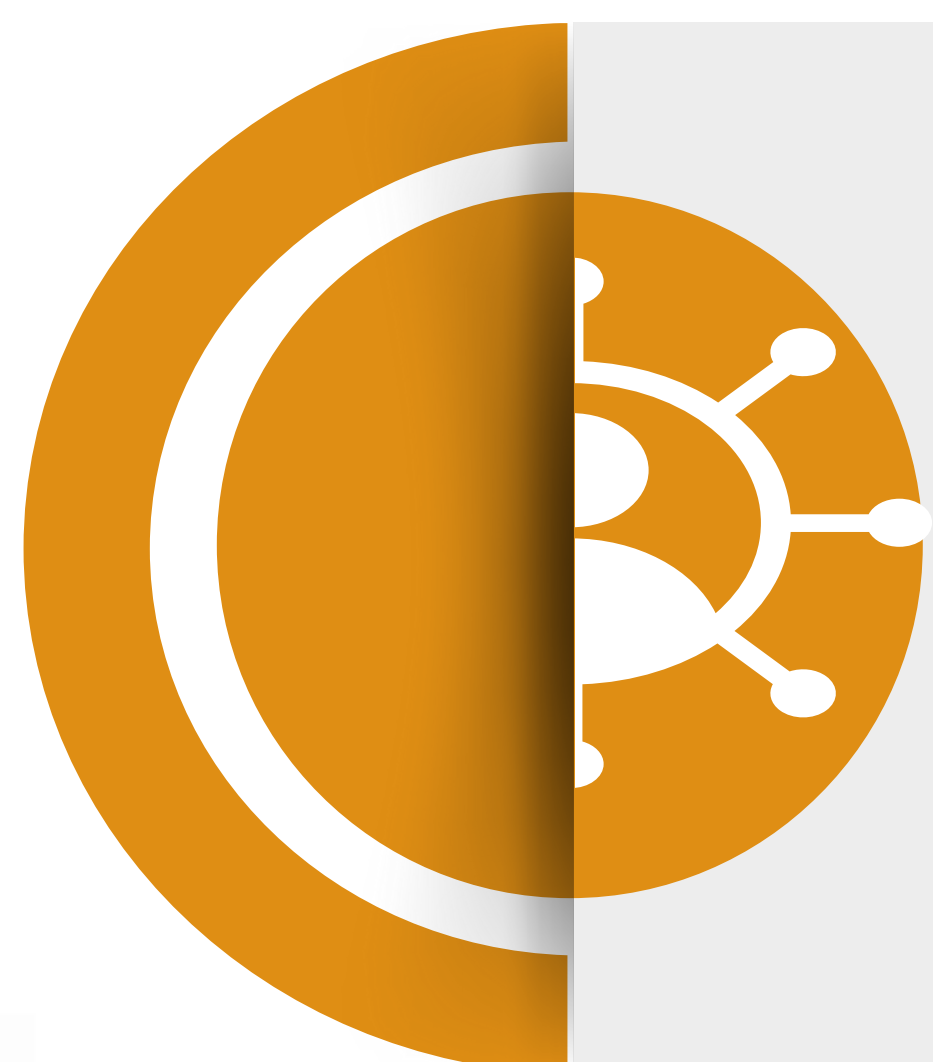

Apply fundamental knowledge and skills in engineering technology when pursuing higher education.

01

Participate in collaborative conducts, communicate effectively and display good values while pursuing further education.

02

Continue engagement and commitment to continuous learning in engineering technology.

03

06 Programme Learning Outcome (PLO)

FOUNDATION IN ENGINEERING TECHNOLOGY

Upon completion of the programme, students should be able to:

Utilise facts to describe and discuss concepts, principles, and processes in a specific field of study;

PL01

PL02

Apply fundamental principles in the field of study to identify and solve problems;

Conduct academic activities such as collect, analyse, organise, and process data/information to make conclusions individually or in groups;

PL03

PL04

Communicate effectively in oral and writing;

Utilise basic digital technology applications to seek and process data related to a specific field of study; and

PL05

PL06

Search, interpret, and use relevant information ethically to pursue lifelong learning independently.
